HARDSHIP FUND EXPENDITURE, December 2024 – early October 2025

			Comments
	Amount Spent (US\$)	Number of people helped	
Medical expenses	390.00 200.00	3 1	In the first part of the year, three of our students needed medical treatment for which they had to pay. In one case, the family was able to contribute something, but in the other two cases, we used the Hardship Fund to cover all expenses. Expenditure covered stitches to one student's leg after a fall, five days hospitalization for another student suffering from kidney stones, and for the third student medicine to cure gastroenteritis. In August, the mother of one of our students damaged her hand and could not continue with her work in a hospital. She was made redundant. The Hardship Fund covered some medical expenses (\$200) and is also supporting her family, while she is looking for work (see Family 4, under Family support below).
Educational support			
One computer Two computers Computer repairs	557.91 985.52 70.00	8 12 11	Due to heavy use, one computer used by students on the outskirts of Quito had to be replaced in May. A further two computers had to be replaced in August, and another needed repairs. All these computers continue to be heavily used.
Family support - total			
Family 1 (\$100 x 3 months) Family 2 (\$100 x 2 months) Family 3 (\$30 x 3 months) Family 4 (\$100 x 3 months) Family 5 (\$100 x 3 months)	300.00 200.00 90.00 300.00 300.00	3 5 4 5 4	Only two families needed help with living support in the first part of 2025. The economic and political situation improved slightly in Quito, and the electricity cuts which were causing problems in late 2024 ceased, at least temporarily. Unemployment of the mother (the only breadwinner) in the two families receiving help was the cause of the need. From August, three families needed temporary help. One required \$30 per month, due to the father's working hours being reduced. Another needed \$100 per month, following the mother's loss of a cleaning job. For Family 4, see Medical expenses above.
Employment support			
- Mixer	166.41	5	The father of one of our students was about to lose his job, as the mixer he used and which was essential for his construction work broke down. The Hardship Fund enabled him to buy a new mixer and continue to support his family.
Housing - Family 1 - Family 2	353.90 100.00	2 3	In February this year, the building where one of our students lived with her mother caught fire, probably due to a short circuit. The building had to be evacuated, and the family was left homeless and without any furniture. We used the Hardship Fund to pay some of the costs involved while the family found another place to live and then to buy a desk and a chair so our student could continue to study in the new accommodation. A second family was forced to leave their home, which was in a dangerous condition, and we made a grant of \$100 to the family to pay for temporary accommodation, while they searched for a new permanent home.
