- In 2022 Fondation Eagle concentrated on the Food and Water sectors as the need in these sectors has sharply risen due to the climate change effects, particularly significant was the drought in East Africa, in these sectors we focused largely on Kenya where the rains had failed for 5 consecutive seasons.
- Please note that most of the projects are funds for construction and purchase of equipment, and thus the beneficiaries will be on-going for several years. In the table above only 1 year's beneficiaries are counted. The norm on average is 7-10 years use for constructions in under-developed counties and 5-7 for equipment. So, with the grants of 2019, at the lowest point of the spectrum, 5 years' beneficiaries, the Foundation's aid will benefit around 1,286,815 people in need, well under 1 CHF per person.
- The number of beneficiaries mentioned is the estimate made by the charities at the time of their request for funding. The actual number, reported on completion of the project may differ slightly from their first estimate.
