Analysis of Projects by sector and the number of beneficiaries for the year 2025

No of beneficiaries per sector:	Benific	% benif
Education-	9'142	1.52%
Health-	227'390	37.85%
Water-	317'586	52.85%
Voc Training-	450	0.07%
Feeding-	46'334	7.71%
Total	600'902	100.00%

- Please note that most of the projects funded are construction and purchase of equipment, and thus the beneficiaries will be on-going for several years. In the table above only 1 year's beneficiaries are counted. The norm on average is 7-10 years' use for constructions in under-developed countries and 5-7 for equipment.
- The number of beneficiaries mentioned is the estimate made by the charities at the time of their request for funding. The actual number, reported on completion of the project may differ slightly from their first estimate.
