# IT SCHOOLS AFRICA

Report to Fondation Eagle
Mulanje Secondary School – Additional funding

Introduction

In March 2016 Fondation Eagle donated £7,458 to IT Schools Africa, for the completion of one IT Lab at Mulanje Secondary School in Malawi. The school had very limited IT facilities and wanted to improve their inadequate equipment so more students could sit the national IT exam and also to encourage using ICT for teaching resources.

After successfully completing the project under budget, some funding still remained, £473 (MK520, 300 in Malawian currency).

How we used the funding

In September, programme manager Sabina visited the school again to discuss with the head teacher what he felt would best support the existing IT lab. It was agreed that more paper and printer cartridges as well as vouchers for the Internet would be most useful. The Internet vouchers will provide six months access to the Internet. They were extremely pleased with the additional items!

The total costs were broken down as follows:

1) Cartridge x 3 = K270, 000

2) Paper reams x 14 = K49, 000

3) Internet vouchers = K201, 300

Total = K520,300

 (£473, exchange rate K1100)

Some of the items received by Mulanje School

IT SCHOOLS AFRICA

Appendix A

Letter from Mr Nyapwala, Headmaster

From: The HT, Mulanje sec   08-09-2016

To: Computers From Malawi schools

I acknowledge receipt of the following
items from Computers For Malawian schools

1. Recher   1. 6 months supply of
                internet (recharge vouchers)

              2. 14 reams of photocopying
                 paper

              3. Laserjet toner (3)
